### DESCRIPTION

The new basalt technology enables extreme bending radii, yet the bars remain very dimensionally stable. All connections have a RUNPOTEC thread RTG Ø 6 mm, have no bumper edges or threaded transitions. The magnet can hold objects up to 2.5 kg. In combination with the magnet, the ball chain enables targeted location or guidance to wall and wall openings. In addition, the comfort package contains the special sliding hook and can effortlessly overcome obstacles up to 6.5 cm high thanks to the tilting function. The also included shockproof LED lamp has a very high luminosity and extremely long burn time due to AAA Duracell battery. In the practical storage bag with carrying strap, the complete accessories can be stowed perfectly.

**Optimum area of application:** suspended ceilings, cable ducts, cavity walls, cabling for unrouted cables, underfloor shafts, various bushings and much more.
