ADVANTAGES

✓ **incl. twist adjustment**

✓ **Tensile load up to 1200 kg**

✓ **flexible stainless steel wire braiding**

✓ **Extremely long service life**

✓ **Stainless steel**

DESCRIPTION

Cable pulling sleeve with loop and RUNPOTEC RTG Ø 12 mm and RTG 6 mm thread including twist compensation. Made of flexible stainless steel wire mesh. The built-in twist compensation allows the cable to turn in the pipe, thus preventing the thread from unscrewing. Can also be looped in. Highest quality materials with a long service life! Compatible with RUNPO-TEC RTG Ø 12 mm and RTG Ø 6 mm thread. Preferably in combination with glass fibre rods.

Information in combination with the CW 800 E capstan winch:
RUNPOTEC recommends the use of cable pulling sleeves with loop Art. No. 20661 - 20670 in combination with the CW 800 E capstan winch or the pulling ropes in combination with the connecting swivel with twist compensation Art.No. 10176.

Scope of delivery:
1 piece 30 - 40 mm cable pulling sleeve with loop and thread or
1 piece 40 - 50 mm cable pulling sleeve with loop and thread or
1 piece 50 - 60 mm cable pulling sleeve with loop and thread or
1 piece 60 - 70 mm cable pulling sleeve with loop and thread or
